Raj Diwate

Fullstack Developer • Backend Developer • Software Developer

Sinhgad College of Engineering • 2024 Pass out

Projects

Notes App </>

- To learn the integration of Reactjs and Django
- Learnt through refering documentation and online tutorials.
- This is a Django and React project which performs CRUD operations like adding , deleting, reading and updating a note.

Skills Developed: Django, React.js, CSS, Tailwind

My Blogs(Blogger Website with Real-Time Editor and Authentication) 🔗 </>

- To develop a secure and user-friendly blogging platform that allows authenticated users to efficiently manage their posts, offering real-time editing capabilities and ensuring robust data handling through modern front-end and back-end technologies.
- Developed a feature-rich blogging platform with functionalities to create, update, delete, and read posts.
- Integrated a real-time text editor for an enhanced user experience during content creation.Implemented user authentication to restrict post management actions to authenticated users only. Utilized React.js with Redux for efficient state management and Appwrite as the backend service for seamless data handling.

Skills Developed: React.js, Redux, Javascript, Github

User Service with JWT Authentication </>

- Developed a user service that includes JWT (JSON Web Token) for secure authentication, ensuring only authorized users can access protected resources.
- Implemented user registration and login functionality with encrypted passwords. Designed and integrated JWT-based authentication to manage user sessions and protect API endpoints.
- Added role-based access control (RBAC) for different user roles (e.g., admin, user). Developed additional basic functionalities like password reset, email verification, and user profile management.

Skills Developed: NodeJs, ExpressJs, MongoDB, Github, Git

Achievements/ Extracurricular Activities

- Earned the 50 Days Badge on LeetCode, placing me in the top 6.9% of LeetCoders who have diligently solved problems for over 50 days in 2024!
